I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

I support the thousands of port drivers and warehouse workers in their struggle to fight injustice, prejudice, wage theft, and misclassification. These working class heroes have gone on strike, stood up to be counted and gone to court to stop the corporate lawbreaking at our nation's largest ports. It turns out real superheroes wear vests.

The Ports of Los Angeles and Long Beach should set a highroad example for what kind of country we want to live in. The time for your bold leadership to stop the war on workers in America is now.

PUBLIC COMMENT at CITY COUNCIL**

Labor Leader- Pat Kelly/Eric Tate/Fred Potter (depending on time)- Barb

Dwayne Wilson/Alberto Arenas: Explain what the delegation was about, present another large petition poster including printed copies. Asks crowd in chambers to stand up in support.

Tracy Ellis- Same speech as during press conference, asks council to end wage theft. Wage theft is a crime, it must end here.

Daniel 'Seko' Uaina- same speech as outside. Why are workers on strike? Demands. Wage theft must end

Nikole Cababa or Alex Montances- Work of the coalition to support all workers experiencing wage theft. Coalition is committed to work with city leaders to end wage theft but we have to be involved in all conversations; we work to serve them and their families. We will continue to push until wage theft ends in Long Beach and remain vigilant on how monies set aside for wage theft is being spent.
